

GMS HM1500

Hotmelt Machine

January 2022

IG Machinery & Equipment

Product Description

The GMS HM1500 is an easy-to-use, entry-level machine designed for cost-effective extrusion of hotmelt butyl sealants. The machine is fabricated with the same high quality components as the larger models but is best suited to lower production volumes of up to 500 insulated glass units per week.

Product Features

- Digital temperature displays for tank, hose and gun
- Low temperature cut out
- Variable speed control
- Calibration modes
- Optional timer

Technical Data

Dimensions (h x w x d)	1000mm x 500mm x 600mm
Weight	110kg
Hopper capacity	20kg
Variable output	0-1.5kg/min.
Power rating	10 amps/2kW
